

Project 3 – Timers
30 Points
CS421 – Dr. Shaffer
Due: Friday October 20, 2000

1 The project

As described in the text, complete the implementation of a timer based on the Spec 1170 timers available in Linux. Specifically complete the implementation of this timer as described in sections 6.5, and 6.6.

2 What you should hand in

The entire project should be turned in as one “.tar.gz” file (via e-mail as before).
