**Prerequisite:** CS 151, 152, 251 and two other courses which apply to the CS major

**Other requirements:** You must join either ACM or IEEE within the first three weeks of the semester.

**Content:**

- Proposal for capstone project
- Research and implementation of capstone project solution

**Attendance:** Attendance is **required**.

**Grading:**

Letter grades are assigned based on the percentage of the available points that you receive. The grading scale is fixed. **I do not curve.** The grading scale is as follows:

Letter	Percentage	Letter	Percentage
A	[92,100]	A-	[90,92)
B+	[88,90)	B	[82,88)
B-	[80,82)	C+	[78,80)
C	[70,78)	D	[60,70)
F	[0,60)		

Below is a breakdown of the point value of the material:

Proposal	80 points (see Guidelines)
Progress on research and implementation	70 points max (5 points for meeting each deadline with quality work)
Participation in class discussions	35 points max (5 per “engaged” class meeting)

**Academic policies:**

Westminster College has adopted a standard academic integrity policy which is provided to you in your student handbook. In addition the department of Mathematics and Computer Science has a set of guidelines regarding academic honesty which can be found at: <http://www.westminster.edu/staff/bonomojp/cheating.html>. The policies discussed above are specific to my class. Breach of this academic honesty policy (ie cheating) results in a grade of 0 (zero) for that item. All incidents of cheating will be reported to the college Dean.

**Disabilities and special needs:** I will make any necessary, reasonable accommodations for students with disabilities.

If you have a disability which requires accommodations, it is your responsibility to indicate to me that you have a disability and to discuss with me what special needs you might have regarding this class. In addition to notifying me, if you have a disability which requires class accommodations, you must make it known to Westminster College’s student affairs office so that they can send me the proper paperwork.
